## 'DOING IT AGEN IN 20TEN'

The McCays annual Expo has become a tradition in Manjimup. It is unique in Western Australia as one of the only Expos still run by a single business in store and in the fact that it combines the best of Retra Vision and Mitre 10. This year for the "Doing it Agen, in 20Ten" expo over 40 suppliers are involved and nearly 40 Reps will be in store all day to display and demonstrate their latest products.

For one day only they have come to help with any queries you may have on their product and are authorised by McCays to offer the lowest prices you will find anywhere.

From state of the art cameras, computers and phones to the latest kitchen equipment or from top quality paint and power tools to garden needs it's all here at the McCays "Doing it Agen, In 20TEN" Expo.

Thursday 6th May from 8am to 8pm Manjimup store only  
**See you there!!!**

The National Breast Cancer Foundation is the leading national not-for-profit organisation that is dedicated to supporting and promoting high quality research into the prevention, detection and treatment of breast cancer.

Breast cancer is one of the most commonly occurring cancers in Australian women, with 13600 new cases expected to be diagnosed this year. But thanks to excellent research, deaths from the disease have decreased by 22% in the last decade, with more women knowing the benefits of early detection and an increase in treatment options.

Management and staff at McCays are proud to be supporting this worthy cause and look forward to the help of the Manjimup Community in making this a great success.

~Cash donations are tax deductible~
